You asked us:

Question 1: When will I get married?

Question 2: Will I have an arranged marriage or love marriage?

Question 3: How will my future husband be like?

Question 4: Will I have a happy married life?

As per the information given by you, we have analyzed your birth chart.

Answer 1: As per the details given by you, the ruler of the 7th house of your horoscope is Mars. A dasha (sub period) of Mars is starting for you in October of 2011. Hence, most likely, you will get married during the later part of 2011, after October.

Answer 2: You will have a romantic affair which will get converted into an arranged marriage. The families will agree upon the union. Hence, yours will be a combination of love and arranged marriage.

Answer 3: Your husband will be very handsome, have a good professional status with a well-balanced personality.

Answer 4: Your marital life will be full of happiness but you should be careful about your temper. Due to the position of Mars in your horoscope, you are quick-tempered. You should cool down your temperament.

Overall you have a very good birth chart. All the best from our side!
